

Thomas Thomassen

Webdeveloper / UX Designer

I'm a developer with around 8 years of coding experience, with 3 of those professionally, where I've had the chance to build, learn, and laugh alongside some amazing people. I'm a down-to-earth, easygoing person who loves bringing people together, whether that's working collaboratively with teammates, meeting with customers, or managing projects. With my partner from Austria and a background working in an international environment, I'm feel at home in multicultural settings and enjoy all the fresh perspectives. I'm a true team player who thrives on shared successes and is always happy to lend a hand where needed—or simply getting in the "zone" for hours on end.

Experience

○ Feb 2025 - Current

Cocoon Company | Fårvang

UI Designer & Frontend developer

Currently I'm doing a project employment for Cocoon Company, working as a single developer and designer on all their web-based projects.

○ Apr 2022 - Dec 2024

Bewise | Hjørring

UX Designer & Frontend developer

In nearly three years at Bewise, I honed my skills as a UX Designer and Frontend Developer with a primary focus on template development for DanDomain's new webshop platform. My involvement spanned 200+ webshops, working closely with the DanDomain development team to ensure seamless, user-centered design and functionality.

I developed a range of BI dashboards to user-friendly and responsive designs, developed WordPress and WooCommerce projects, and regularly utilized JavaScript, Angular, Smarty Template Language, PHP, Tailwind.CSS, SCSS, Liquid and Grunt.js for efficient build processes. I also contributed to .NET projects with abit of C# and Razor and gained exposure to Vue and Svelte frameworks. Additionally, I leveraged Azure DevOps for streamlined development workflows and done minor Python projects.

This comprehensive experience has equipped me with the ability to deliver client-centered, scalable solutions tailored to diverse business needs, merging design and functionality in every project.

○ Jan 2015 - May 2017

International School of Billund | Billund

Kindergarten teacher assistant

○ Mar 2012 - Nov 2014

Legoland | Billund

Traffic school instructor
